

Academy Lms

Academy Lms is the best online learning platform for everyone. Using academy, you can create course and teach your students on any topic from anywhere and anytime.

How it works

Academy Lms collaborates 2 user types primarily.

Admin and students, if you are the sole instructor of your course portal.

If you allow public instructors, then it becomes 3.

Admin
(you)

Students
(learners)

Instructors
(optional)

01

Student workflow

- Create account and browse courses
- Save favourite courses to wishlist
- Add courses to cart and purchase
- Start learning from my course page
- Messaging with course instructor

02

Instructor workflow

- Create courses from instructor panel
- Admin approves pending courses for sale
- Students purchase course and money deposited to site admin
- Admin pays course price commission to instructor

03

Admin workflow

- Install academy lms in own server
- Setup the portal with all settings
- Create courses, sell, make money
- Requires no approval or commission
- Allow instructors to sell courses

Core Features

Advanced course manager

Drag n drop lesson organizer

Public instructor

Instructor dashboard

How

Short
description

Today I am starting part 1 of an ongoing series I am going to call 'Step Up Your Filmammaking'. Today's topic is the importance of B-Roll.

Description

Shooting B-Roll, and shooting the right B-Roll is an integral part to tell story. It makes ALL the difference. In this tutorial we explore this concept in depth.

I might even have to say it's my favourite tutorial to date!
